Are Your Lungs Weak?

Does the cough, left by the grippe—or the cold contracted during the winter, still hang about you? Rydals's Elixir will cure your cough and heal your weak lungs. It kills the germs that cause chronic throat and lung disease and helps nature restore the weakened organs to health. Trial size 25c. Family size 50c. C. A. Milford.

Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and replaced and polished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on the same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness which such injuries entail. For sale by C. A. Milford, Abbeville. H. M. Young, Due West.

Sued by His Doctor.
"A doctor here has sued me for \$12.50, which I claimed was excessive for a case of cholera. At the trial he praised my medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used, and he said yes. I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by C. A. Milford, Abbeville. H. M. Young, Due West.

Shade Trees.

Editor Press and Banner:

Your editorial in your issue referring to the importance of preserving our shade trees was most timely. Our city fathers spend considerable money every year to the tender mercies of wild and reckless and reckless children to bark, and stand and until they are dead. The authorities don't seem to pay a particle of attention to them after the setting. In days gone by the streets and sidewalks were shaded by the trees and others of that class were tenderly and carefully nurtured until now they are the best shade trees in town.

If all the streets of Abbeville had been lined with good water oaks years ago we would have the most magnificent shade town in the State. Oaks and Elms are what we need. Maples are pretty but too brittle. They are the most magnificent and protected by strong stakes or posts for two or three years. Up-lane trees should be secured by nothing from street to street.

Protect the
